

What is OPENVERSE?

OPENVERSE is a **Coordination and Support Action (CSA)**, funded under the **Horizon Europe** programme. It's rooted in the ambition to elevate the European Union's landscape, responding to the global tech competition and fostering technological sovereignty.

OPENVERSE will be reaching the end of its run in October 2026, but its work materialised in the form of resources that can now take a life of their own, **with a little help from you.**

Funded by
the European Union

Project funded by

Schweizerische Eidgenossenschaft
Confédération suisse
Confederazione Svizzera
Confederaziun svizra

Swiss Confederation
